A peek at just part of the agenda:

- ***The Focus Funnel***

Perfect for editing and organizing information, the Focus Funnel will become your #1 tool for creating the “perfect instructions”. You’ll wonder how you ever taught without it!

- ***The Audible Marker***

The audible mark or “tag” is the star of the show and the ace up your sleeve. Say goodbye to wandering attention and hello to laser focus from the student.

- ***The Ultimate Refinement***

Learn to perfect the timing of your instructions and reinforcement so they supersede distractions in the learning environment.

“I thought this was a great seminar, but I had no idea of how it would change my life”.

Anja Rudolf - University of Applied Science, Ingolstadt, Germany
